## Item #BURS-138, Amana Tool Solid Carbide Tree Shape 1/8" D x 1/2" CH x 1/8" Shank Double Cut SF Burr Bit for Die-Grinders \$7.02

Thank you for shopping with us!

**Double Cut (DC)** burrs utilize a cross flute of exactly half the number of standard flutes in an opposing helix. Benefits include rapid removal of a broad range of materials combined with excellent operator control. It does this by incorporating a cutting rake angle that gives great "bite" into the material, and yet is not so aggressive that the operator fatigues quickly after using it in a hand piece. A DC flute geometry gives better performance in low RPM applications, but still performs well at high RPMs.

**Applications**: To be used with air or electricity-driven hand die-grinder with a typical collet mechanism or knee mill with an air-driven spindle speeder such as an Air Turbine product. An air speeder can bump spindle.

(Carbide brazed to steel shank.)

Warning: Not to be used in conventional routers.

## Excellent for cutting:

- -Aluminum
- -Brass
- -Bronze
- -Copper
- -Cast Iron
- -Steel: 40-55rc -Steel: 55-60rc
- -Steel: Carbon
- -Steel: Nickel
- -Chrome
- -Stainless Steel
- -Steel Weldments
- -Titanium

SPECIFICATIONS	
Manufacturer	Amana Tool
Diameter	1/8 in
Cut Height, Length, or Width	1/2 in

SPECIFICATIONS	
Note	Warning: Not to be used in conventional routers.
Overall Length	1 1/2 in
Style	DC Ref #SF-42DC
Туре	Double Cut/Solid Carbide
