Item #BURS-160, Amana Tool Ball Shape 1/2" D x 7/16" CH x 1/4" Shank Double Cut SD Burr Bit for Die-Grinders - 6 1/2" Long

$36.60

Thank you for shopping with us!

Double Cut (DC) burrs utilize a cross flute of exactly half the number of standard flutes in an opposing helix. Benefits include rapid removal of a broad range of materials combined with excellent operator control. It does this by incorporating a cutting rake angle that gives great " bite" into the material, and yet is not so aggressive that the operator fatigues quickly after using it in a hand piece. A DC flute geometry gives better performance in low RPM applications, but still performs well at high RPMs.

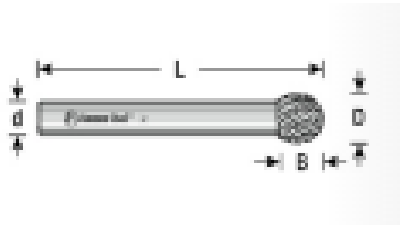

Applications: To be used with air or electricity-driven hand die-grinder with a typical collet mechanism or knee mill with an air-driven spindle speeder such as an Air Turbine product. An air speeder can bump spindle.

(Carbide brazed to steel shank.)

Warning: Not to be used in conventional routers.

Excellent for cutting:

-Aluminum
-Brass
-Bronze
-Copper
-Cast Iron
-Steel: 40-55rc
-Steel: 55-60rc
-Steel: Carbon
-Steel: Nickel
-Chrome
-Stainless Steel
-Steel Weldments
-Titanium

SPECIFICATIONS

SPECIFICATIONS	
Manufacturer	Amana Tool
Diameter	1/2 in
Carbide H, or Cut H/L/W	7/16 in
Note	Warning: Not to be used in conventional routers.
Overall Length	6 1/2 in
Shank	
Style	DC Ref #SD-5L6DC
Type	Double Cut
