Item #BURS-204, Amana Tool Flame Shape 5/16" D x 3/4" CH x 1/4" Shank Double Cut SH Burr Bit for Die-Grinders

$22.32

Thank you for shopping with us! **Double Cut (DC)** burrs utilize a cross flute of exactly half the number of standard flutes in an opposing helix. Benefits include rapid removal of a broad range of materials combined with excellent operator control. It does this by incorporating a cutting rake angle that gives great " bite" into the material, and yet is not so aggressive that the operator fatigues quickly after using it in a hand piece. A DC flute geometry gives better performance in low RPM applications, but still performs well at high RPMs. **Applications**: To be used with air or electricity-driven hand die-grinder with a typical collet mechanism or knee mill with an air-driven spindle speeder such as an Air Turbine product. An air speeder can bump spindle. (Carbide brazed to steel shank.) Warning: Not to be used in conventional routers. Excellent for cutting: -Aluminum -Brass -Bronze -Copper -Cast Iron -Steel: 40-55rc -Steel: 55-60rc -Steel: Carbon -Steel: Nickel -Chrome -Stainless Steel -Steel Weldments -Titanium

SPECIFICATIONS	
Manufacturer	Amana Tool
Diameter	5/16 in
Carbide H, or Cut H/L/W	3/4 in
Note	Warning: Not to be used in conventional routers.
Overall Length	2 1/2 in
Shank	1/4 in
Type	Double Cut
Style	DC Ref #SH-2DC
