Item #BURS-204, Amana Tool Flame Shape 5/16" D x 3/4" CH x 1/4" Shank Double Cut SH Burr Bit for Die-Grinders \$17.61

Thank you for shopping with us! **Double Cut (DC)** burrs utilize a cross flute of exactly half the number of standard flutes in an opposing helix. Benefits include rapid removal of a broad range of materials combined with excellent operator control. It does this by incorporating a cutting rake angle that gives great "bite" into the material, and yet is not so aggressive that the operator fatigues quickly after using it in a hand piece. A DC flute geometry gives better performance in low RPM applications, but still performs well at high RPMs. **Applications:** To be used with air or electricity-driven hand die-grinder with a typical collet mechanism or knee mill with an air-driven spindle speeder such as an Air Turbine product. An air speeder can bump spindle. (Carbide brazed to steel shank.) **Warning:** Not to be used in conventional routers. Excellent for cutting: -Aluminum -Brass -Bronze -Copper -Cast Iron -Steel: 40-55rc -Steel: 55-60rc -Steel: Carbon -Steel: Nickel -Chrome -Stainless Steel -Steel Weldments -Titanium

SPECIFICATIONS

| | |
|-------------------------------------|--|
| Manufacturer | Amana Tool |
| Diameter | 5/16 in |
| Cut Height, Length, or Width | 3/4 in |
| Note | Warning: Not to be used in conventional routers. |
| Overall Length | 2 1/2 in |
| Shank | 1/4 in |
| Type | Double Cut |
| Style | DC Ref #SH-2DC |
