CUTS

Item #D055018WMX, Diablo 5-1/2" x 18 Tooth Fast Framing Saw Blade

\$13.89

Thank you for shopping with us!

Diablo's fast framing saw blades produce accurate, smooth cuts on framing materials without bogging down your cordless saw's battery. This 20mm arbor saw blade includes three additional bushings that allow your blade also to fit on 1/2", 5/8", or 10mm arbor saws. These blades feature Diablo-made TiCo Hi-Density Carbide engineered exclusively to maximize life, performance, and durability in wood cutting applications.

The thin kerf body minimizes material removal and requires less cutting power, delivering fast, clean rips and cuts. Diablo-made TiCo Hi-Density Carbide specifically designed for framing applications to provide maximum performance and life. Advanced laser-cut thin kerf blade gives extremely fast, effortless cuts in cordless saws.

Laser-cut stabilizer vents trap noise and vibration, keeping the blade cool and reducing blade warp.

Non-stick Perma-Shield® Coating reduces gumming, rusting, and corrosion. Optimized for 1/2", 5/8", 10mm, and 20mm cordless saws. Compatible with Makita (5/8" arbor), Black & Decker (1/2" arbor), Ryobi (10mm arbor), Porter Cable (10mm arbor), and Craftsman (10mm arbor).

Ideal for hardwoods, softwoods, 2X lumber, pressure-treated lumber, OSB, plywood, and laminated beams

Ideal For: Framing and paneling

Suggested Projects: Framing, Remodeling/Demolition

SPECIFICATIONS

Manufacturer	Diablo Tools
Arbor	20mm
Diameter	5 1/2 in
Teeth	18 ATB

SPECIFICATIONS	
Hook Angle	18 deg
Kerf	0.049 in
Plate	0.039 in
Application	Framing and paneling
Unit Price	--
Pack Quantity	1
