D0744CD

Item #D0744CD, Diablo TrexBlade 7-1/4" x 44 Tooth 7-1/4 in x 44 Tooth Composite Material / Plastics \$38.58

Thank you for shopping with us!

Diablo's TrexBlade is the only recommended composite decking by Trex Company when cutting composite decking materials. These new blades deliver maximum performance and highest quality of finish, making it a 'must-have' tool for both professionals and DIYers planning composite decking projects. Diablo's new saw blade series has a modified triple chip tooth grind design, Perma-SHIELD® non-stick coating, and specific TiCo™ Hi-Density carbide to deliver more efficient and cleaner cuts with no swirl marks, less "gumming" of blade teeth, and longer cutting life.

Specially formulated TiCo™ Hi-Density carbide to maximize cutting life in composite decking materials and plastics

Modified Triple Chip Grind (MTCG) enables the material to remain cool while cutting—for melt-free cuts

Laser cut stabilizer vents keep the blade straight and true for superior quality cuts and no swirl marks

Thin Kerf design requires less cutting power, making them ideal for underpowered saws at the jobsite

Perma-SHIELD® non-stick coating reduces drag and shields the blade against heat, gumming, and corrosion

Ideal For: High quality finish cuts in composite material and cellular PVC

Suggested Projects: Siding/Decking

Diablo Ferrous Cutting Blades Vs standard abrasive discs.

Up to **40X** the life of standard abrasive discs.

Standard Abrasive Discs

TRIPLE CHIP GRIND
For Long Life & Durability

TiCo
HI DENSITY CARBIDE

TRI-METAL BRAZING
Withstands Extreme Impact

Super Thin Laser Cut Kerf
Now super thin kerf provides ease of feed, accuracy and maximized performance.

Perma-SHIELD® Coating
Non-stick, Aluminum Alloy Coating shields the blade against heat, gumming and corrosion. Ideal for all woods including decking.

TiCo™ Hi-Density Carbide
Provides a controlled carbide wear that stays sharper up to 4 times longer than standard carbide.

Hard-Core™ Steel Plate
Premium steel, hardened to HRC 48, delivers robust performance and durability.

Laser Cut Stabilizer Vents
Traps noise and vibration and stabilizes the blade; producing smoother, cleaner, quieter cuts.

Tri-Metal Shock Resistant Brazing
Tri-metal brazing system allows carbide tips to withstand extreme impact for maximum durability.

Laser Cut Heat Expansion Slots
Allows blade to expand due to heat build up, thus keeping the cut true and straight.

Laser Cut Arbor
Laser cut arbor for accurate blade rotation reduces vibration and premature wear.

Precision Tensioning
Computer controlled process keeps the blade flat and true, while maximizing blade life, precision and performance.

Lifetime Guarantee
(See Manufacturer for details)

Others:
Cuts material for up to 1 house.

DIABLO
Cuts material for up to 4 houses.

SPECIFICATIONS

Application	High quality finish cuts in composite material and cellular PVC
Diameter	7 1/4 in
Arbor	5/8 in
Hook Angle	-3 deg
Kerf	.065 in
Teeth	44 MTCG
Plate	.040 in
Manufacturer	Diablo Tools
Pack Quantity	1
