D0842CF

Item #D0842CF, Diablo 8" x 42 Tooth Steel Demon Cermet Metal & Stainless Steel Cutting Saw Blade for 4300 Max RPM Saw \$41.43

Thank you for shopping with us!

The new 8" 42T Steel Demon Cermet blade cuts both metal and stainless steel while providing 5x the cutting performance than standard metal cutting blades. By delivering the ultimate metal cutting performance and unmatched value story, this blade will be a game changer for metal cutting! This blade is specially formulated with Cermet teeth, a Triple Chip Grind Tooth Design, Laser cut blade bodies, Anti-vibration technology, and Perma-Shield® Non-Stick Coating to deliver precise cuts with no sparks and cool, burr-free edges.

Cermet teeth provide a high heat tolerance and increased hardness for superior wear and impact resistance; lasts up to 5X longer than standard carbide.

Improved Laser Cut Stabilizer Vents trap noise and vibration for maximum stability, keeping the blade cool with accurate cuts in metal cutting applications.

Triple Chip Tooth provides fewer sparks, burr-free finish, and longer life. Tri-Metal Shock Resistant Brazing, a three metal brazing system, allows metal cutting carbide tips to withstand extreme impact for maximum durability.

Perma-SHIELD® non-stick coating for less heat and corrosion.

4300 Max RPM

Laser Cut Arbor reduces vibration and premature wear for accurate blade rotation.

Cuts 1/16"-1/4" wall thickness in steel studs, angle iron, flat bar, channel, and EMT conduit.

Cuts 1/16"-1/4" wall thickness in plate and bar stock.

Cuts 1/4" -1" diameter threaded rod.

Ideal For: Steel Studs, Angle Iron, Flat Bar, Channel, EMT Conduit, All-Thread with thicknesses of Studs & Tubing (Wall thickness 1/16" -16 gauge- min 1/4" max); Plates & Bars (Thickness 1/8" - 11 gauge - min 1/2" max); RODS (Diameter 1/4" min 1-1/2" max)

Suggested Projects: Metalworking
