D1024X

Item #D1024X, Diablo 10" x 24 Tooth Ripping Saw Blade

\$33.58

Thank you for shopping with us!

Diablo's blade cuts rough framing lumber, high quality finish lumber, plywood, OSB, and hardboard siding with the smoothest, fastest, and most accurate cut. The thin kerf design requires less cutting power from the user and the saw for better control over the cut. Diablo's unique design, extra-tough steel plate, and proprietary carbide tips deliver longer life—and frames more houses—than other framing blades. Ideal for general construction applications, including fast, efficient ripping and crosscutting.

TiCo™ Hi-Density carbide specifically designed for each application to increase performance
Perma-SHIELD® Non-stick Coating protects from heat, gumming, and corrosion
Super thin laser cut kerf for fast, durable, and clean cuts
Tri-metal shock resistant brazing allows carbide tips to withstand extreme impact for maximum durability
Hardened Steel Body—warrants a longer life and sharper cutting edge.

Ideal for: Superior quality rip cuts (3/4" to 2 3/4") in wood, plywood, and OSB

Suggested Projects: Remodeling/Demolition

SPECIFICATIONS

Manufacturer	Diablo Tools
Arbor	5/8 in
Diameter	10 in
Teeth	24 ATB
Hook Angle	15 deg
Kerf	.098 in
Plate	0.071 in
