Item #D1284CD, Diablo TrexBlade 12" x 84 Tooth Composite Decking Miter Saw Blade \$69.96

Thank you for shopping with us! Diablo's TrexBlade is the only recommended composite decking by Trex Company when cutting composite decking materials. These new blades deliver maximum performance and highest quality of finish, making it a 'must-have' tool for both professionals and DIYers planning composite decking projects. Diablo's new saw blade series has a modified triple chip tooth grind design, Perma-SHIELD® non-stick coating, and specific TiCo™ Hi-Density carbide to deliver more efficient and cleaner cuts with no swirl marks, less "gumming" of blade teeth, and longer cutting life. Specially formulated TiCo™ Hi-Density carbide to maximize cutting life in composite decking materials and plastics Modified Triple Chip Grind (MTCG) enables the material to remain cool while cutting—for melt-free cuts Laser cut stabilizer vents keep the blade straight and true for superior quality cuts and no swirl marks Thin Kerf design requires less cutting power, making them ideal for underpowered saws at the jobsite Perma-SHIELD® non-stick coating reduces drag and shields the blade against heat, gumming, and corrosion Ideal For: High quality finish cuts in composite material and cellular PVC Suggested Projects: Siding/Decking

SPECIFICATIONS Application High quality finish cuts in composite material and cellular PVC Diameter 12 in

SPECIFICATIONS	
Arbor	1 in
Hook Angle	-3 deg
Kerf	.102 in
Teeth	84 MTCG
Plate	.071 in
Manufacturer	Diablo Tools
Pack Quantity	1
