D1484X

Item #D1484X, Diablo 14" x 84 Tooth Fine Finish Saw Blade

\$88.78

Thank you for shopping with us! Fine Finish blades let trim crews get the most out of sliding or “chop” style miter saws, as well as jobsite or workshop table saws. The special cutting geometry and high tooth count produce extremely smooth cuts while minimizing “grabbing” or blowout. Diablo's blade is the ideal choice for trim carpenters because it leaves a smooth surface that requires little to no sanding. It's ideal for crosscutting oak, pine, melamine, plywood, and molding. TiCo™ Hi-Density carbide specifically designed for each application to increase performance Perma-SHIELD® Non-stick Coating protects from heat, gumming, and corrosion Super thin laser cut kerf for fast, durable, and clean cuts Tri-metal shock resistant brazing allows carbide tips to withstand extreme impact for maximum durability Hardened Steel Body—warrants a longer life and sharper cutting edge Ideal for: High quality crosscuts and rip cuts in wood, plywood, and melamine Suggested Projects: Remodeling/Demolition, Landscaping

SPECIFICATIONS	
Manufacturer	Diablo Tools
Arbor	1 in
Diameter	14 in
