Item #DDX045CON101C, Diablo Tools 4-1/2 in. Diamond Continuous Masonry Cut-Off with X-LOCK Arbor **\$25.47**

Thank you for shopping with us! Diablo's diamond continuous rim masonry cut-off discs provide extreme durability, minimal downtime, increased productivity. These diamond rimmed discs deliver 4X longer cutting life versus a standard diamond cut-off disc. The disc's industrial-grade diamonds with hardened disc body delivers lasting durability and maximizes cutting quality in hardened materials even in extreme applications. Designed to be backwards compatible, these discs work with X-Lock angle grinders and 7/8 in. arbor angle grinders. Superior quality diamond edge rim design for up to 60% smoother cuts, resulting in chip-free cuts without burn marks. Hardened disc body absorbs vibration and increases impact resistance to deliver superior quality cuts in hardened materials. Ultra-thin constant contact continuous turbo rim design provides precise cuts at high rates of speed. Industrial-grade diamonds evenly wear, exposing new diamonds for continued disc use and up to 4x longer life. Backwards tool compatible. Designed for use on X-Lock and 7/8 in. arbor angle grinders. No extra parts needed to attach to X-Lock grinder. Simply snap onto or pull lever to release from X-Lock grinder. Max RPM of 13,280 Ideal For: Cutting Masonry

SPECIFICATIONS	
Manufacturer	Diablo Tools
Application	Granite, Marble, Porcelain, Tile
Arbor	7/8 in, X-Lock
Hub	1
Recommended For	Cutting Masonry
Rim Design	Continuous
RPM	13,280
Size	4 1/2 in
