Item #DHS0875CF, Diablo 7/8" Steel Demon™ Carbide Teeth Hole Cutter \$40.68

Thank you for shopping with us! Diablo's high-performance TiCo Hi-Density carbide teeth hole cutters deliver 50X longer cutting life, faster cutting performance, and maximum productivity. An optimized carbide tooth geometry provides fast, burr-free holes that require virtually no rework. The depth stop collar maximizes productivity by providing a controlled drilling experience and limited drilling depth. The combination of a tool-free plug ejection system and spring-loaded plug eject Cobalt pilot bit makes plug removal fast and efficient. Diablo's hole cutters are compatible with Diablo's Snap-Lock Plus™ mandrel, resulting in quick, easy, and effortless cup changes. Up to 50X longer cutter life in metal cutting versus standard bi-metal hole saws Depth Stop Collar for controlled and efficient hole drilling Plug Eject Cobalt Pilot Bit prevents overfeeding and allows for easy removal of plugs Tool-free plug ejection for fast material removal Compatible with Diablo's Snap-Lock Plus™ mandrel for quick and easy cup changes with no down time Drills up to 1/4" metals, including sheet metals, electrical panels & steel studs For use with a drill press or hand-held drill
