Item #DJT101BHM, Diablo Tools 4" 12TPI Wood Demon™ Carbide Teeth Jig Saw Blade for Fine Finish Wood

\$13.30

Thank you for shopping with us!

Diablo's Wood Demon™ carbide teeth jig saw blades provide premium finishes, unmatched durability, and superior cutting life in wood cutting applications.

High-performance carbide teeth deliver up to 50X longer cutting life than standard jig saw blades. With its Perma-SHIELD® coating, these fine finish blades provide friction-less precise cuts across a variety of woods.

The optimized tooth and blade designs provide fast, effortless, and clean bottom finishes. A T-shank design fits all combo and most U-shank cordless and corded jig saws.

High performance carbide for greater durability and up to 50X longer life

Bi-directional tooth design for fine top and bottom finishes

Fast plunge tip design enables faster and easier plunging

Perma-SHIELD® coating resists heat build-up by protecting the blade against gumming and corrosion

T-shank design fits all combo and most U-shank jig saws

Maximum performance in cordless and corded jig saws

Ideal for hardwoods, softwoods, MDF, particle board, and plywood
