Item #DMD1364JP1, Diablo Tools 13/64" Metal Demon™ Drill Bit For Mild, Hardened, And Stainless Steel

\$6.29

Thank you for shopping with us! Stop switching between drill bits and get consistent results across every metal application with Diablo's Metal Demon™ drill bit. Designed as a true all-in-one solution, this bit drills through mild steel, hardened steel, and stainless steel with speed and precision. The Thermal Shield Protective Coating™ protects the tip from heat buildup, delivering up to 30X longer life than titanium, cobalt, or black oxide bits, while maintaining cutting performance. A precision-ground cutting edge and 130° hybrid split point tip create fast starts and reduce walking, helping you drill clean, accurate holes every time. Built for productivity, this bit removes material faster and helps you complete more holes per charge or per shift.

- **All-In-One Metal Drilling Solution:** Designed to drill mild steel, hardened steel, and stainless steel with one bit.
- **Up to 30X Longer Life - Built to Outlast Standard Bits:** Thermal Shield Protective Coating™ protects against heat buildup for extreme durability.
- **Faster Drilling Performance:** Precision cutting edge delivers up to 2X faster hole drilling in metal applications.
- **130° Hybrid Split Point Tip:** Provides fast starts, reduces walking, and improves hole accuracy in metal.
- **Cutting Edge™ Technology:** Precision CNC grinding process improves cutting performance and reduces wear.
- **More Holes Per Charge:** Engineered to drill up to 50% more holes per battery charge for increased productivity.
- **Multi-Material Capability:** Drills metal, cast iron, stainless steel, sheet metal, wood, and plastic.

SPECIFICATIONS

Manufacturer	Diablo Tools
Diameter	13/64 in
Carbide H, or Cut H/L/W	2 in working length
Material	Metal, cast iron, stainless steel, sheet metal, wood, and plastic
Overall Length	3.4 in
Shank	3-Flats
Point/Tip	130 deg Hybrid Split Point Tip

SPECIFICATIONS

Pack Quantity	1
