Item #DS1208CFA, Diablo 12" 8TPI AMPED™ Steel Demon™ Carbide Teeth Reciprocating Saw Blades for Thick Metal

\$28.13

Thank you for shopping with us! Diablo's AMPED™ Steel Demon™ reciprocating saw blades are "AMPing Up" thick metal cutting with the introduction of the industry's first ever industrial grade coating, Black Industrial Cooling Element (I.C.E.). The ultra-slick Black I.C.E. coating protects the cutting edge against wear for extreme durability and longer blade life. Hi-Performance Carbide delivers an unmatched up to 100X longer cutting life in metal cutting applications ranging in thickness from 3/16" to 9/16". The combination of Black I.C.E. and Diablo's carbide delivers extended life and an impressive up to 2X increased performance vs. standard metal cutting carbide reciprocating saw blades. -Hi-Performance Carbide delivers the greatest durability and cutting performance in thick metal applications -Black I.C.E. coating protects cutting edge against wear for extreme durability and longer blade life -Enhanced carbide tip to blade connection for extreme impact resistance -1" oversized blade body provides stability and rigidity for straighter cuts with less vibration -Perma-SHIELD® resists heat build-up by protecting the blade against gumming and corrosion

SPECIFICATIONS	
Manufacturer	Diablo Tools
Length	12 in
Tooth Design	Carbide
TPI	8
Pack Quantity	1 blade
