Item #DT355T721-30, Amana Tool Ditec™ Dynamically Balanced Panel Sawing - TCG: Main Saw for Panel Sizing Laminated Boards

$248.29

Thank you for shopping with us! Dynamically balanced saw blade ensures saw blade stability for a clean cut. Triple Chip Grind - Extended life. Unique, long life saw blades made for cutting chipboard and plywood with/without coating. Teeth are produced from special micro-grain quality, thus durable against wear while working with abrasive material. Intended for table saw and panel sizing machines. Its straightening maintained for a long period due to unique method, which does not harm the structure of the saw body steel. With the use of static balancing, increased stability is ensured to preserve the machine bearings. ***Note: P.H. denotes pin-hole configuration, if applicable. Example: 2/10/60 = 2 @ 10mm dia on 60mm circle.*** Warning: Before use, read saw blade safety guidelines on pages 306-608 of ***Amana's catalog.***
