Item #FF302, Whiteside Machine 6" Face Frame Long Counterbore (Carbide Tipped) 3/8 Shank

\$70.52

Thank you for shopping with us!

Specifically designed for the furniture industry, the Face Frame Counterbore drills a hole into the material at a joint and is then secured with a screw. The 6" length provides extra reach and boring depth. This extended counterbore should be used on a drill press.

SPECIFICATIONS	
Diameter	0.136 pilot diameter
Counterbore	3/8 in
Type	Long - for use on drill press
