Item #HC5122M, Whiteside Hercules Max Life 1/2 x 1 1/4 Solid Carbide Spiral (2+2 Compression) - Mortise Style - Up/Downcut, 1/2 Shank **\$98.20**

Thank you for shopping with us!

This series is named "Hercules" for its ability to hold up under severe loads.

Meant for heavy loads, this bit is engineered for maximum bit life in high wear applications. Ideal for long production runs in MDF and laminated materials. This flute design creates a compression cut that prevents fraying and splintering. Compression spirals will save you time and money on finishing your project edges by reducing sanding time. This bit has the added feature of shorter upcut flutes, allowing the downshear cutting action to the top surface during shallow cuts.

Solid Carbide is not guaranteed against breakage.

SPECIFICATIONS	
Manufacturer	Whiteside Machine
Cut Height, Length, or Width	1 1/4 in
Flute Geometry	Mortise
Note	Mortise Style (short up-cut flute for shallow dado cuts)
Overall Length	3 in
Shank	1/2 in
