**Item #HD30024, Everlast 300mm 24-Tooth .087" Plate 0.125" Kerf Heavy Duty Rip Saw - 70mm - 2 keyways 20mm W x 10mm D w/anti-kickback \$132.00**

Thank you for shopping with us!

HD-series saws are specially designed for fast cutting on both manual and power feed ripping operations. Design features include large gullets, heavier plates, and use of the proper clearances designed for this type of heavy duty cutting in both hard or soft woods. Modifications such as special grinds, bores, keyways, and pinholes can be provided on all GL and HD items.

Straight Top Grind - STR - Each tooth will cut full kerf, making this design very effective for removing material however high cutting pressures are present. Typically used for rip cutting hardwood and softwood.

| SPECIFICATIONS      |                                             |
