Item #HU5125, Whiteside Hercules Max Life 1/2 x 1 1/4 Solid Carbide Spiral - Upcut, 1/2 Shank \$67.83

Thank you for shopping with us!

This series is named "Hercules" for its ability to hold up under severe loads.

Meant for heavy loads, this bit is engineered for maximum bit life in high wear applications. Ideal for long production runs in MDF and laminated materials. Upcut spiral provides the best control with hand or table routing. When creating dado cut, the upcut design brings chips up and out of the cut.

Solid Carbide is not guaranteed against breakage.
