Item #LU1B04, Freud® 350mm Dia, 30mm Arbor, 24 Tooth Saw Blade for Carpentry Works: LU1B Series **\$105.99**

Thank you for shopping with us!

Carbide-Tipped Blade for carpentry works. Suitable for ripping and crosscutting. High-performance saw blade with excellent cut and without splintering; finished and perfectly smooth surface, which is specifically recommended for molds and section end trims where the front-end cut keeps visible..

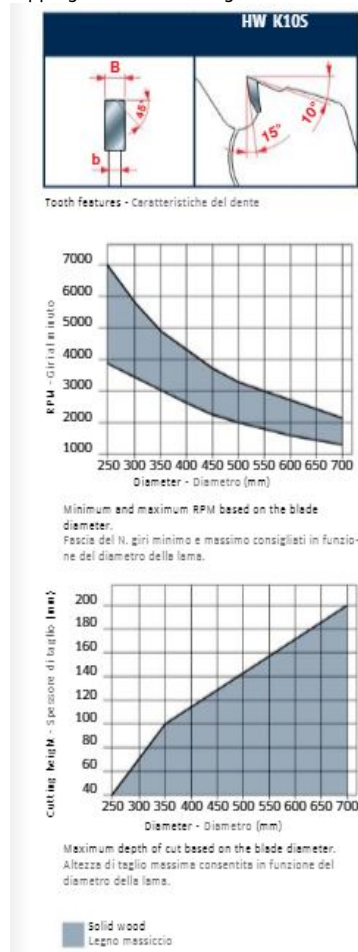

Silver I.C.E. Coating prevents build-up on the blade surface and keeps the blade running cooler and cleaner.

Machines: Table saws, portable machines

Features: ATB/beveled tooth with positive cutting angles

Material: Softwood and hard solid wood and panels, even in case of nails or metal clips

Ripping and crosscutting of softwood & hardwood: Good
