Item #LU5E0370, Freud® Saw Blades to Cut Non-Ferrous Metals: Series LU5E \$170.19

Thank you for shopping with us! Carbide-Tipped blade for cutting non-ferrous metals with Next Generation Anti-Vibration Design that eliminates movement and reduces machine vibration. Silent Sawblade. Silver I.C.E. Coating prevents build-up on the blade surface and keeps the blade running cooler and cleaner. Machines: Miter saws with mechanical clamping of the piece Features: Flat triple-chip tooth with positive cutting angle Material: Aluminum, non-ferrous metals Ideal For: To cut special drawn products, such as tubes and similar products having ultra-thin walls. The reduced thickness allows an excellent cutting finish, without splintering, and optimizes its employment in low-power machines, too.
