Item #LU85R008, Freud Ultimate Cut-Off Blades: LU85R Series

\$89.68

Thank you for shopping with us!

Application: Ultimate Crosscutting Blades for Glass-Smooth Finishes

This superior blade gives glass-smooth finishes when crosscutting hard and soft woods, so no sanding is required. What makes this blade so special is the unique side grinding of each tooth. The teeth actually polish the material as it cuts. New laser-cut anti-vibration slots practically eliminate the vibration that resonates in standard blades, producing glass-smooth finishes. With a finish this perfect, you won't need stabilizers!

Premium TiCo™ HI-Density Carbide Crosscutting Blend for Maximum Performance. No Stabilizers needed. Unique Side Grind polishes the material to produce a superior finish. Perma-Shield™ Non-Stick Coating reduces blade drag, protects the blade from corrosion and pitch buildup.

Ideal For: Ultimate crosscutting blades for glass-smooth finishes when crosscutting hardwood and softwood, so no sanding is required. Depth of cut (1/4" min to 1-5/8" max).

Tip: Maintain a proper feed rate. Feeding too slow causes burning of the material. Feeding too fast can be dangerous and produces a dull cut.

SPECIFICATIONS	
Diameter	8 in
Arbor	5/8 in
Kerf	.116 in
Plate	.098 in
Teeth	64 ATB
Type	Perma-SHIELD
Manufacturer	Freud Tools
