### Item #MD10-803TB, Amana A.G.E. Series Thin Kerf Double-Sided Melamine Saw Blades: H-ATB Grind \$109.50

Thank you for shopping with us!

#### Smooth, clean cuts in double-sided melamine.

Designed for chip-free cuts in double-sided melamine and veneered sheet goods on saws without a scoring unit. The H-ATB tooth geometry slices cleanly through fragile coatings and laminates. The high bevel will not "violate" the bottom laminate upon exiting the cut, which causes "blow-out." Thin kerf blades reduce waste in expensive materials and require less horsepower to operate. Extra hard sub-micrograin carbide tips for long life.

MD10-803TB: One of Amana's most popular blades.

**Warning:** Not recommended for cutting non-ferrous alloys.

## SPECIFICATIONS

<b>Manufacturer</b>	Amana Tool
<b>Bore</b>	5/8 in
<b>Diameter</b>	10 in
