### Item #MD12-106, Amana A.G.E. Double Miter Saw Blades: 4&1 Grind \$147.57

Thank you for shopping with us!

#### Cut gap-free miters, every time.

These blades are designed especially for glass-smooth compound miter cuts in moldings and picture frame stock for use in a miter box and single/double miter machines. This style blade is the perfect choice for picture frame and millwork shops. Unlike thinner miter blades, which have a tendency to flex and warp, throwing off the miter joint, our blades are stiffer and provide clean burr-free cuts in wood. Special grind, minimal run-out, and tight side clearances all combine to yield perfect "gap-free" miters every time!

MD12-106: One of Amana's most popular blades.

**Warning:** Not recommended for cutting non-ferrous alloys.

## SPECIFICATIONS

|                     |                                     |
