Item #MD12-816, Amana A.G.E. Double Miter Saw Blades: 4&1 Grind \$122.68

Thank you for shopping with us!

Cut gap-free miters, every time.

These blades are designed especially for glass-smooth compound miter cuts in moldings and picture frame stock for use in a miter box and single/double miter machines. This style blade is the perfect choice for picture frame and millwork shops. Unlike thinner miter blades, which have a tendency to flex and warp, throwing off the miter joint, our blades are stiffer and provide clean burr-free cuts in wood. Special grind, minimal run-out, and tight side clearances all combine to yield perfect "gap-free" miters every time!

MD12-106: One of Amana's most popular blades.

Warning: Not recommended for cutting non-ferrous alloys.

| SPECIFICATIONS | |
|----------------|------------------|
| Manufacturer | Amana Tool |
| Diameter | 12 in |
| Bore | 1 in |
| Grind | 4+1 |
| Kerf | 3.0 mm (.118 in) |
| Hook Angle | -5 deg |
