Item #MD12-848, Amana A.G.E. Series Solid Surface Saw Blades: M-TCG Grind

\$114.00

Thank you for shopping with us!

Excellent for cutting solid surface materials. Specifically designed for cutting solid surface materials such as Avonite®, Dupont Corian®, Wilsonart®, Gibraltar®, Earthstone®, Fountainhead®, Surrell®, Staron®, plastic laminate, Plexiglas®, and other acrylic based materials. The modified triple chip grind is especially configured to leave a swirl-free cut in solid surface materials. Thicker than normal steel plates reduce vibration that degrades the cut and shortens tool life. Suitable for a variety of saw configurations. The hook angle virtually eliminates self-feeding when used on a radial arm saws.

SPECIFICATIONS

| | |
|-------------------|----------|
| Diameter | 12 in |
| Bore | 1 in |
| Grind | M-TCG |
| Hook Angle | 0 deg |
