Item #MD162, Amana Pro-Series Mortising Router Bits - 1/2" Shank, 2-Flute \$14.74

Edge of Arlington offers free shipping in the United States when you choose flat rate shipping. These mortising bits make hardware installation a snap! The carbide tips leave edges sharp for a clean, professional installation, while the large gullet between the two flutes clears chips away quickly. The cutter geometry creates a crisp outline for a perfect fit. A proper mortising bit should have a large gullet between the two flutes, which allows for greater chip clearance and removal. 1/2"

A proper mortising bit should have a large gullet between the two flutes which allows for greater chip clearance and removal.
