## Designed for clean cuts in plywood and single-sided laminates.

These blades are specifically designed for clean cuts in plywood and single-sided laminates. The greater number of teeth, triple-chip grind, and  $12^{\circ}$  hook angle provide an excellent balance between feed resistance and finish. For a chip-free edge on both top and bottom sides of the double-sided laminates, it is recommended to use **a scoring blade** along with these blades.

MD220-T641: For Holz-Her® panel saw.

Warning: Not recommended for cutting non-ferrous alloys and melamine.
