Item #MD274, Amana Pro-Series Corner Round & Beading Router Bits

Thank you for shopping with us!

The basic edge-forming bit, the corner-rounding bit, rounds an edge to a given radius. The tool is shouldered to cut a fillet. Can be used to ease edges, as a simple profile, or as a part of a complex one.

2-Flute
Pro-Series Carbide-Tipped

A second shoulder can be produced with the 3/8" bearing, in effect making the bit a beading bit.
