### Item #MD7-505, Amana A.G.E. Series Non-Ferrous for Thick Walled Aluminum Saw Blades: TCG Grind \$91.94

Thank you for shopping with us!

#### Superior-Finish cuts in aluminum & non-ferrous metals.

Designed specifically for cutting relatively thick walled (**greater than 1/4" thick**) aluminum. The special carbide formulation and blade geometry make these blades ideal for cutting aluminum and non-ferrous bars such as copper, brass, bronze, and lead. The negative hook angle, triple-chip grind, and thick steel plates combine to produce a superior finished cut. Use a coolant or blade wax and clamp down the workpiece when cutting non-ferrous metals. These blades can also be used to cut other "difficult" materials such as plastic, PVC tubing, and fiberglass. **Warning:** Never attempt to cut ferrous metals (steel, iron, etc) with these blades.

	<b>NON-FERROUS ALLOYS</b>	<b>EXCELLENT ✓</b>
	<b>THICK-WALLED PHENOLIC &amp; HARD PLASTIC</b>	<b>EXCELLENT ✓</b>
	<b>ALUMINUM</b>	<b>EXCELLENT ✓</b>
	<b>BRASS/COPPER</b>	<b>EXCELLENT ✓</b>

## SPECIFICATIONS

<b>Manufacturer</b>	Amana Tool
<b>Diameter</b>	7 1/4 in
<b>Bore</b>	5/8 in
<b>Hook Angle</b>	-5 deg
<b>Kerf</b>	0.110 in
<b>Note</b>	5/8 arbor with diamond knockout. One of Amana's most popular blades.

## SPECIFICATIONS

<b>Plate</b>	0.087 in
