$91.95

Thank you for shopping with us!
Excellent for cutting solid surface materials. Specifically designed for cutting solid surface materials such as Avonite®, Dupont Corian®, Wilsonart®, Gibralter®, Earthstone®, Fountainhead®, Surrell®, Staron®, plastic laminate, Plexiglas®, and other acrylic based materials. The modified triple chip grind is especially configured to leave a swirl-free cut in solid surface materials. Thicker than normal steel plates reduce vibration that degrades the cut and shortens tool life. Suitable for a variety of saw configurations. The hook angle virtually eliminates self-feeding when used on a radial arm saws.

MD7-608:
One of Amana's most popular saw blades.
