Item #MD8-608, Amana A.G.E. Series Solid Surface Saw Blades: M-TCG Grind \$66.23

Edge of Arlington offers free shipping in the United States when you choose flat rate shipping. Excellent for cutting solid surface materials. Specifically designed for cutting solid surface materials such as Avonite®, Dupont Corian®, Wilsonart®, Gibraltar®, Earthstone®, Fountainhead®, Surrell®, Staron®, plastic laminate, Plexiglas®, and other acrylic based materials. The modified triple chip grind is especially configured to leave a swirl-free cut in solid surface materials. Thicker than normal steel plates reduce vibration that degrades the cut and shortens tool life. Suitable for a variety of saw configurations. The hook angle virtually eliminates self-feeding when used on a radial arm saws.

M-TC GRIND

SOLID SURFACE
