## Item #MD8-643TB, Amana A.G.E. Series Thin Kerf Double-Sided Melamine Saw Blades: H-ATB Grind \$101.10

Thank you for shopping with us!

## Smooth, clean cuts in double-sided melamine.

Designed for chip-free cuts in double-sided melamine and veneered sheet goods on saws without a scoring unit. The H-ATB tooth geometry slices cleanly through fragile coatings and laminates. The high bevel will not " violate" the bottom laminate upon exiting the cut, which causes " blow-out." Thin kerf blades reduce waste in expensive materials and require less horsepower to operate. Extra hard submicrograin carbide tips for long life.

\*Denotes 5/8" arbor with diamond knockout.

Warning: Not recommended for cutting non-ferrous alloys.

SPECIFICATIONS	
Manufacturer	Amana Tool
Bore	5/8 in
Diameter	8 in
Grind	H-ATB
Kerf	0.083 in
Note	5/8 in arbor with diamond knockout.
Plate	0.063 in
RPM	7,600
Teeth	64
Hook Angle	-3 deg
