### Item #MS15100, Amana Tool Carbide-Tipped Miter 15 Inch Dia x 100T 4+1 ATB, -2 Deg, 1" Bore

**\$262.06**

Thank you for shopping with us!

Blades are true " Imperial" sizes.

Designed especially for use on the various styles of miter saws, as well as radial arm saws, this blade cuts crisp, chip-free miters in hardwood and softwood, in moldings, and picture frame stock. All of these blades feature the alternate top bevel plus rake grind (4 ATB + 1 raker), 2° negative hook angle, and a high tooth count to produce exactly what you want for tight miters—extremely smooth cuts.

**Warning:** NEVER attempt to cut ferrous metals (steel, iron, etc.) with these saw blades. When cutting non-ferrous metals, a coolant or blade wax should be used and proper clamping devices employed.
