Item #NC-820, Amana Tool Carbide-Tipped Nail Cutting & Demolition 7-1/4 Inch Dia x 14T 5/8 Bore - Universal Bore

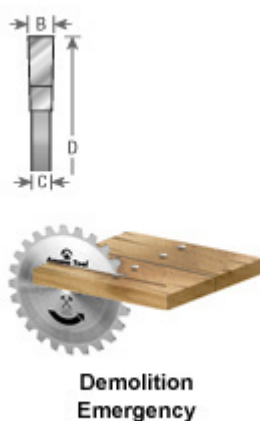

\$40.65

Edge of Arlington offers free shipping in the United States when you choose flat rate shipping.

This blade is designed especially for renovation and demolition work, where contact with nails, screws, and similar debris is expected. The blade is configured—low tooth count and flat top grind—for ripping. A negative hook angle and strong shoulder design help prevent the blade's carbide tips from breaking off upon impact against a hidden nail.

Blade has a universal bore with 5/8" diameter arbor hole and diamond knock-out.

Warning: Before use, read saw blade safety guidelines in [Amana's catalog](#).
