Item #RA1440, Amana Tool Carbide-Tipped Radial Arm 14 Inch Dia x 40T ATB, -2 Deg, 1" Bore Circular Saw Blade $211.43

Thank you for shopping with us!
Designed especially for radial arm saws, sliding compound miter saws, and others with the blade above the workpiece, these blades minimize the tendency to self-feed. They feature a low tooth count and an ATB plus raker grind (typically used on combination blades). Excellent choice for cutting hardwood and softwood. For plywood, use tool #610720, which has a high tooth count and an ATB grind.
