Item #RB-126, Amana Tool High Precision 12mm x 1/4 Router Collet Reducer

$10.77

Thank you for shopping with us!
Our industrial high precision machined collet reduction sleeves enable collet sizes to be reduced to accept CNC and router bits with smaller shank sizes. Reduction sleeves are produced with high quality steel and precisely machined to limit the chance of run-out.

Warning: Reducing the router collet with a sleeve is not a long term solution; for best results using the correct size collet is strongly recommended.
