Item #RC-1075, Amana Tool CNC In-Groove Insert Engraving Tool Body 1/4" Shank (Industrial) \$67.77

Thank you for shopping with us.

Solid carbide insert carbide knives produce crisp clean cuts and last at least twice as long as comparable solid carbide bits. The industrial engraving tool body was engineered to quickly interchange inserts while the tool body remains mounted in your CNC machine. This minimizes down-time and helps to maintain consistent cutting accuracy.

[Insert knives](#) sold separately (purchase below).

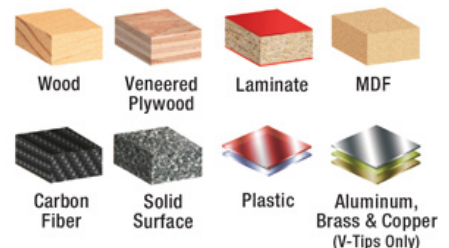

CNC tool bodies are expertly balanced for virtually no vibration to provide superior cutting results.

Designed for cutting and engraving:

- Laminated materials
- Veneers
- MDF
- Plastics
- Soft Wood
- Hard Wood
- Phenolic
- Solid surface
- Carbon fiber
- PCB board
- HDPE
- King Starboard® / Marine Building Material
- Aluminum, brass & copper*
- Corian
- Poly (methyl methacrylate) (PMMA)
- Acrylic Stone
- Coroplast®**

*V-Tip inserts can also engrave aluminum, brass & copper.

**A soft plastic cardboard made with super soft, super flexible PVC.
