Item #RC-1148-M, Amana Tool Insert V-Groove 60 Deg x 23mm x 6mm Shank CNC Router Bit $106.47

Thank you for shopping with us! The innovative CNC tool design uses a high grade solid carbide insert knife, which allows for two uses out of each insert. Once the knife shows signs of wear you can rotate the insert for a brand new cutting edge. These industrial 'V' Groove insert router bits were especially designed for applications including:
• Miter folds - " create the perfect joint"
• Signmaking and lettering
Advantages of Insert Tooling
• Long lasting insert knives provide superior smooth quality cuts every time
• Quick and precise replacement of dull knives
• Due to insert accuracy, tool life is extended
• Insert tooling allows for harder grades of carbide
• Special carbide grades for special applications
• Knives can be sharpened multiple times without affecting the original profile
• Cost effective solution compared to replacing brazed router bits
Secure locking screw system ensures maximum safety and maintains cutting accuracy. CNC router requires quality hold downs to ensure the least possibility of material shifting during operation. **Excellent for cutting—engraving first list item only:**
• Aluminum, Brass, Bronze, Copper, Gold, Silver & Carbon Fiber—Engraving Only
• Foam
• Laminate
• Melamine
• MDF/HDF
• Sign Board
• Solid Surface
• Veneered Plywood
• Wood
• Xanita® Board*
• 20lbs High Density Urethane
*When working with Xanita LightBoard panel (X-board®, X-board® plus) we recommend using MDF knives for better results.

SPECIFICATIONS	
Diameter	27mm

SPECIFICATIONS	
B1	23mm
Carbide H, or Cut H/L/W	23mm
Edge(s)	1
Knives	Included Gen Purp RCK-56 // Optional MDF RCK-350
Length	29mm
Overall Length	61mm
RPM	24,000
Shank	27mm
Angle	60 deg
Manufacturer	Amana Tool
