Item #RC-1148-M, Amana Tool Insert V-Groove 60 Deg x 23mm x 6mm Shank CNC Router Bit \$96.77

Thank you for shopping with us! The innovative CNC tool design uses a high grade solid carbide insert knife, which allows for two uses out of each insert. Once the knife shows signs of wear you can rotate the insert for a brand new cutting edge. These industrial 'V' Groove insert router bits were especially designed for applications including:

- Miter folds - "create the perfect joint"
- Signmaking and lettering

Advantages of Insert Tooling

- Long lasting insert knives provide superior smooth quality cuts every time
 - Quick and precise replacement of dull knives
 - Due to insert accuracy, tool life is extended
 - Insert tooling allows for harder grades of carbide
 - Special carbide grades for special applications
 - Knives can be sharpened multiple times without affecting the original profile
 - Cost effective solution compared to replacing brazed router bits
- Secure locking screw system ensures maximum safety and maintains cutting accuracy. CNC router requires quality hold downs to ensure the least possibility of material shifting during operation. **Excellent for cutting—engraving first list item only:**

Aluminum, Brass, Bronze, Copper, Gold, Silver & Carbon Fiber—Engraving Only

- Foam
- Laminate
- Melamine
- MDF/HDF
- Sign Board
- Solid Surface
- Veneered Plywood
- Wood
- Xanita® Board*
- 20lbs High Density Urethane

*When working with Xanita LightBoard panel (X-board®, X-board® plus) we recommend using MDF knives for better results.

SPECIFICATIONS

Diameter

27mm

SPECIFICATIONS

B1	23mm
Cut Height, Length, or Width	23mm
Edge(s)	1
Knives	Included Gen Purp RCK-56 // Optional MDF RCK-350
Length	29mm
Overall Length	61mm
RPM	24,000
Shank	27mm
Angle	60 deg
Manufacturer	Amana Tool
