Item #RC-45910, Amana Tool In-Tech™ Replaceable Insert Solid Carbide Knife Router Bit System 1/4" Radius, 1/4" Shank **\$52.39**

Thank you for shopping with us! These popular insert router bit profiles provide all woodworkers access to the industrial-grade technology, at an affordable price. By replacing worn knives instead of sharpening standard carbide-tipped bits, router bit dimensions, cutting quality, and accuracy remain constant during the life of the tool. For CNC use only. **Ideal for routing:**

- MDF
- Chipboard
- Softwood
- Hardwood

Benefits of the in-Tech™ Series include:

- Cutting accuracy remains constant during the life of the knife
- Priced comparably to brazed router bits with at least 4 times longer tool life
- Superior cutting quality
- No sharpening costs
- Harder grade tungsten carbide

Replacement insert knives sold as a pair. .
