Item #RC-49300, Amana Tool In-Tech™ Solid Carbide Insert Rabbet 1 1/8" Dia x 1/2" CH x 1/4" Shank \$40.76

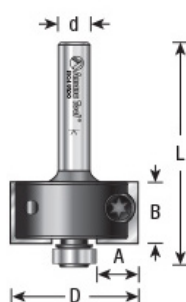

These popular insert router bit profiles provide all woodworkers access to the industrial-grade technology, at an affordable price. By replacing worn knives instead of sharpening standard carbide-tipped bits, router bit dimensions, cutting quality, and accuracy remain constant during the life of the tool. **Cut Depth: 3/8 in Ideal for routing:**

- MDF
- Chipboard
- Softwood
- Hardwood

Benefits of the in-Tech™ Series include:

- Cutting accuracy remains constant during the life of the knife
- Priced comparably to brazed router bits with at least 4 times longer tool life
- Superior cutting quality
- No sharpening costs
- Harder grade tungsten carbide

Replacement insert knives sold as a pair.

COSTS SIMILAR TO
BRAZED BITS
with at least
4X
LONGER TOOL LIFE
