Item #RC-49360, Amana Tool Insert Superabett™ 2" Dia x 30mm x 1/2" Shank 2-Flute w/Ball Bearing Guide **\$198.99**

Thank you for shopping with us! *Recommended by Wilsonart International*. This ingenious tool features both interchangeable cutting edges and an interchangeable guide collar, enabling you to cut a wide range of rabbets. Changing the collars on the twin ball-bearing guide steps the cut width in 1/16" increments from flush through 3/4" with five extra "plywood" sizes. Between the standard and optional collars, there are 18 different rabbet sizes available. The deep guide collar design adds stability to the tool for hand-held router operations. The basic 2" diameter bit includes a hex key, instructions, and all necessary parts for 5/8" and 3/4" width rabbets. Featuring extra-long double-edged solid carbide inserts that enable the bit to cut 30mm high. Inserts can be rotated or replaced without removing the bit from the router. Standard general purpose replacement knives - #RCK-30; knives also available for MDF & solid surface materials. #6002: Complete replacement kit for #49360 and #RC-49360. Includes the following: hex key, spacers, screw, washer, #67426 (5/8" rabbet) collar, and 2 ball bearings. **Warning:** Max RPM = 17,000 [Collars for Superabett](#)
