Item #RD5100S, Whiteside Slow Spiral Bit 1/2 x 1 Downcut - Three Flute, 1/2 Shank \$60.81

Thank you for shopping with us! These bits are very versatile for cutting through hard woods, plastics, and even materials such as solid surface countertops. The slow spiral design is meant for better chip ejection in hard materials. The downcut spiral design ejects chips away from the router when routing through material. Also decreases the tendency to lift thin/small work pieces during CNC routing.

SPECIFICATIONS	
Manufacturer	Whiteside Machine
Diameter	1/2 in
Cut Height, Length, or Width	1 in
Flute Geometry	Downcut
Flute	3
Overall Length	3 in
Shank	1/2 in
