Item #RU4100RN, Whiteside Ball No 3/8 x 1 in Solid Carbide Spiral Upcut 2 Flute - 3/8 Shank, 3/16R \$59.36

Thank you for shopping with us. Ball Nose Spirals leave a rounded bottom during cutting while still providing a better shear cutting angle like their standard spiral counterparts. These are mainly used with small CNCs but can be used in a router or router table. The upcut flute design pulls chips up and away from the workpiece.
