### **Item #SD510C16, Freud Dado Replacement Parts - 10 in dia, 1 in arbor, 4 teeth Chipper** **\$33.97**

Thank you for shopping with us! Use Dado Set components only with the dado set for which they are designed. Never use chippers without both outside blades. [SS100](#) will work with any stacked dado set on table saws or radial arm saws with 5/8" arbor. [SS200](#) will work with any stacked dado on table saws or radial arm saws with a 1" arbor. Freud dado sets are built to last through many years of sharpening and use. However, accidents like dropping a chipper do happen and Freud offers a full range of replacement parts. All outside blades and chippers are made to the same exacting standards of quality as the original set. For wider cuts, Freud's Precision Shim Set and additional chippers are available.
