### **Item #TC1440A, Everlast Truss & Component Saw - 14" Dia 40-Tooth 1" Bore 0.134" Plate 0.185" Kerf \$206.90**

Thank you for shopping with us!

These saws are the workhorses of truss plants and are designed to provide a long service life and excellent cutting performance. Countersunk (82°) holes will accept 5/16" flat head bolt.

Alternate Top Bevel - ATB - Each tooth has top bevel typically between 10 and 20 degrees. Two teeth are required to provide a full kerf cut. Provides low cutting pressures, which reduce material tearing during the cutting process and provides a fine cutting finish. Best performance cross cutting.

| SPECIFICATIONS |                               |
|----------------|-------------------------------|
| Manufacturer   | Everlast                      |
| Diameter       | 14 in                         |
