Item #UP001-IC, Freud Door Lip Cutters \$267.05

Edge of Arlington offers free shipping in the United States when you choose flat rate shipping. Freud's Shaper Cutters and Performance System® Cutters are recognized for their versatility, quality, and innovation. Freud offers the flexibility to choose from a premium cutter that fits every need. The conventional fixed wing shaper cutters and Performance System Cutters with re-sharpenable inserts both feature Freud's exclusive TiCo™ Hi Density Carbide, Kickback Reducing Design, Shear Angle, and Multi-Axis grinding.

These cutters are designed for counter-clockwise rotation with the rabbet down, popular with raised panel doors where the panel extends farther than the door frame. With clockwise rotation they can be used with the face down, so inconsistency in door thickness will not show when doors are closed.

3 Wings

SPECIFICATIONS
