Item #Y-ADAPTER, Vega Y Adapter - 1/4" - Pack of 5
$6.40
Thank you for shopping with us!

Made from S2 modified shock resistant steel for professional performance and durability. Precision controlled heat treatment for extreme durability and wear protection. Standard 1/4" shank fits most power tools and chuck adapters.

Used to drive hook screws and eye bolts.

Unique from Vega! Installing J-hooks and screw eyes with your hands can be frustrating, especially on overhead studs. The Vega Y-Adapter has a groove designed to fit screw eyes and J-hooks, making it the perfect solution for easier driving of these screws:

• Attach the Y-Adapter to a standard bit holder, the bit holder on a multi-bit screwdriver, or directly into the chuck of a drill driver • Fit the hook screw into the Y-Adapter groove • Drive the screw eye or J-hook in or out with ease

Placement of the screw eye into the Y-Adapter groove

Vega Y-Adapter is also included in the following sets: VHS100A, V39, VSH53A
